

NEWSLETTER MAY 2009

JUST A WEE UPDATE ON THINGS TWINSHOCK IN SCOTLAND THIS MONTH.

The meeting at powmill last week was a belter, a very good entry and a new track layout. Full line ups in all the races saw some very good racing. You can read the race report on Monty's page of the club website, it will also be in the TMX News soon.

It seems the boxing season has started again, to all riders involved in heated exchanges or worse, we will not and do not tolerate these actions at our events and a life ban will be the punishment for any such actions in the future. The swift action of club officials brought a swift conclusion to these matters, now let us hope we see no more of it, you are all out for a good day's sport so let us keep it the way.

The litter left at powmill was diabolical, I can only say that the people that left such a mess including a cheap nasty marquee frame should be ashamed of themselves, is your house clean? what state is your garden in? do you ever take a burd back to your pad? if this is how you treat other peoples land, i would think not, you know who you are and if caught in future you get the same ban as the boxers.

A thank you must go to the members and their families that waited after the last race to tidy the place and get the track dismantled. It seems that the club rule that was brought in a few years back that states, a rider must be at the trophy presentation to receive their trophy, is being flouted by mates collecting trophies on their behalf. Well this has now ended, if you are not at the trophy presentation in person to collect your trophy, you will not get a trophy, simples.

The dvd of the powmill meeting is now ready and can be purchased from big monty at the normal price of ???, very good viewing and some great action shots of grown men being ruled by a motorcycle, Ian Clarks wheelie skills are legendery. contact monty on 01383-720631 for a copy.

Sandy Eccles also has over 1000 photo,s taken at the meeting, they are on the club website and can be ordered from him on 07711-650936 and are only £4 each, he now offers a larger poster type size if you want to go large, i do not know how much the big ones cost.

The club has been restocking with guff to sell to you, we have club stickers at only £1 for 2, a small and a large, if you want to save money on the stickers you can buy them individually for only 90p each.

I am also waiting on a new order of club zippers and a new pit shirt in various colours, the zippers will still be only £18 each and i think the pit shirts will be £14 each, these should be available at the dunoon meeting.

We now move to sunny Dunoon for round 4 of the championship on the 21st of June, The track is our usual venue at Ardentinnny in the lovely midge free hills of Argyll. Grant McClure and his men have been busy getting the place prepared for us and assure me that the track is in tip top condition camping will be allowed and as usual a few thumping heads will be on view on the Sunday morning. Sean Docherty will have a supply of the great monster energy drink to rehydrate all the suffering alkies, so at least you have something to look forward to.
